

CALL FOR PAPERS

ICSEES 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSEES 2022 : International Conference on Solar Energy and Energy Storage is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Solar Energy and Energy Storage. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Solar energy and energy storage
All solid state batteries
Batteries for grid energy storage
Capacitive energy storage systems
Ceramic and metallic interconnects
Computational modeling of processes
in SSHS
Electrolytes; oxygen ion, proton
and mixed conductors
Fuel cell catalysts and catalyst
support

Photovoltaic cells technologies
Solar Concentrating Systems
Solar Energy Systems
Nanotech enabled Solar Energy
Systems
Reflectors
Solar Energy Storage Systems
Solar Energy Technology
