

CALL FOR PAPERS

ICSRM 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSRM 2022 : International Conference on Stimuli Responsive Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Stimuli Responsive Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Stimuli responsive materials
Intelligent stimuli-responsive materials
Stimuli-responsive polymers: design, synthesis and characterization

Application of responsive polymers
Thermo-responsive polymers
Self-oscillating polymer gels as novel biomimetic materials
