

CALL FOR PAPERS

ICTNWMDM 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTNWMDM 2022 : International Conference on Technologies in Nuclear Waste Management Process Design and Materials is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Technologies in Nuclear Waste Management Process Design and Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nuclear waste management
technology
Waste management of nuclear
materials and nuclear fuels
Advanced aqueous and pyrochemical
separation processes
Transmutation of nuclear waste
products

Thermal hydraulics and heat
transfer
Radioactive waste management and
decommissioning
Multiscale modelling, simulation,
and optimization techniques in
nuclear waste management
Future developments in nuclear
waste management technologies
