

CALL FOR PAPERS

ICTOE 2022
Apr 08-09, 2022
Athens, Greece

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTOE 2022 : International Conference on Trends in Organic Electronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Trends in Organic Electronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Organic electronics
Advances in organic electronics
Challenges in organic materials
Organic semiconductor polymers
Organic shape memory materials
Organic dielectric materials
Characterization techniques
Organic magnetic materials
Piezoelectric materials
Organic Spintronics
Organic optic materials
Organic biomaterials
Electrical, optical and magnetic properties of organic film

Ferroelectric Materials
Organic biosensors
Semiconductor metal complexes
Antibacterial Properties
Organic metal complexes
Electrical measurement techniques
Organic compounds
Optical measurement techniques
Perspectives of organic electronics
Organic electronics for energy applications
Magnetic measurement techniques
Conducting materials
Electric and magnetic of organic materials
