

# CALL FOR PAPERS

**ICCAICM 2022**  
**Apr 22-23, 2022**  
**Boston, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCAICM 2022 : International Conference on Composites in Aircraft Industry and Composite Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Composites in Aircraft Industry and Composite Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Composite materials  
Advanced composite materials  
Types of advanced composite materials  
Laminated structures  
Major components of a laminate  
Strength characteristics  
Fiber orientation  
Fairings  
Flight control surfaces

Landing gear doors  
Leading and trailing edge panels on the wing and stabilizer  
Interior components  
Floor beams and floor boards  
Vertical and horizontal stabilizer primary structure on large aircraft  
Primary wing and fuselage structure on new generation large aircraft  
Turbine engine fan blades  
Propellers
