

CALL FOR PAPERS

ICEDM 2022
Apr 05-06, 2022
Cancun, Mexico

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEDM 2022 : International Conference on Electrosurgical Devices and Modalities is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrosurgical Devices and Modalities. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Electrosurgical devices
- Electrosurgery
- Principles of electrosurgery
- Electrosurgical equipment
- Electrosurgical instruments
- Electrosurgical units and electrosurgical systems
- Monopolar instruments and systems
- Bipolar instruments and systems
- Electrical stimulation of neural and muscle cells
- Common electrode configurations for devices with isolated circuits
- Dedicated non-grounded machines without a dispersive electrode
- Electrosurgical modalities
- Wet field electrosurgery
- Electrosurgical waveforms
- Prevention of unintended harm
- Electrosurgery patient safety
- Principles and safety measures of electrosurgery
- Electrosurgical waveforms
- Electrosurgery techniques
- Electrocautery
- Tissue heating
- Tissue responses
- Electrosurgical generators
- Disposable patient return electrodes
- Reusable patient return electrodes
- Pressure sores
