

# CALL FOR PAPERS

**ICVCBMAS 2022**  
**Apr 05-06, 2022**  
**Cancun, Mexico**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVCBMAS 2022 : International Conference on Vegetable Crops Breeding and Marker-Assisted-Selection is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Vegetable Crops Breeding and Marker-Assisted-Selection. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Genetic resources  
Neglected vegetables  
Domestication  
Pre-breeding  
Yield improvement  
Abiotic stress tolerance  
Disease resistance  
Breeding for water and fertilizer  
use efficiency  
Breeding for low-input and organic  
conditions

Breeding for nutritional quality  
Breeding strategies  
Hybridization  
Phenomics  
In vitro culture  
Marker-assisted-selection  
Genomics  
Genetic engineering
