

CALL FOR PAPERS

ICMSEMT 2022
Apr 15-16, 2022
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSEMT 2022 : International Conference on Material Science, Extractive Metallurgy and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Material Science, Extractive Metallurgy and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Extractive metallurgy
Extractive metallurgy methods
Metallurgical testing
Technology
Ferrous extractive metallurgy
Non-ferrous extractive metallurgy
Activated minerals
Process and methods of extraction of metals
Process of separating commercially valuable minerals from their ores
Natural mineral deposits
Mineral processing
Magnetic separation
Froth floatation

Leaching
Hydrometallurgy
Precipitation
Distillation
Adsorption
Solvent extraction
Pyrometallurgy
Calcining and roasting operations
Electrometallurgy
Electrowinning
Electro-refining
Washing, concentration, separation, chemical processes and extraction of pure metal
