

CALL FOR PAPERS

ICNESC 2022
Apr 15-16, 2022
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNESC 2022 : International Conference on Nanomaterials for Energy Storage and Capacitors is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanomaterials for Energy Storage and Capacitors. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanomaterials for energy storage
and saving applications
Nanomaterials design and synthesis
Electrode materials binders and
electrolytes for batteries
Dual-ion batteries
Capacitors and supercapacitors

Fuel cells
Thermal energy storage
Chemical energy storage
Performance, lifetime, and
degradation studies
