

CALL FOR PAPERS

ICPBP 2022
Apr 15-16, 2022
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPBP 2022 : International Conference on Plant Biotechnology and Productivity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Plant Biotechnology and Productivity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Plant biotechnology
Biotechnology for improvement of yield and quality traits
Breeding biotechnologies
Plant agriculture
Mendelian genetics and plant reproduction
Plant breeding
Plant development and physiology
Manipulation of plant development
Molecular genetics of gene expression
Transgenic plants
Transgenic plant production
Transgenic plant analysis
Agricultural biotechnology

The future of plant biotechnology
Micropropagation in plants
Plant biopolymers and bioinformatics
Blue plant biotechnology
Biomass, biofuel, and byproduct
Biopolymer production in plants
Plant productivity and its environment
Agricultural crop production: applications and perspectives
Biotransformation
Plant germplasm
Commercial, legal, sociological, and public aspects of plant biotechnologies
IPR and plant variety protection rights
Regulations and biosafety
