

CALL FOR PAPERS

ICACEGG 2022
Apr 04-05, 2022
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACEGG 2022 : International Conference on Advances in Coastal Engineering Geotechnics and Geology is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Coastal Engineering Geotechnics and Geology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Site investigation and
characterization of marine soil and
rock mass
Land reclamation and ground
treatment in coastal regions
Geologic and geotechnical aspects
of design and construction of
coastal and offshore
infrastructures

Identification, prediction and
mitigation to the geohazards in
coastal regions
Geotechnical earthquake
engineering
Recent case studies on coastal
engineering geology
