

CALL FOR PAPERS

ICAMRMT 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMRMT 2022 : International Conference on Advanced Materials Research and Manufacturing Technologies is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Materials Research and Manufacturing Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

3D scanning and printing technologies
Advanced machining technologies
Advanced manufacturing processes
Advanced materials
Biomaterials
Composite materials and repairs
Energy materials and composites
Functional materials
Structural health monitoring

Sensors and actuators
Laser, microwave and thermal processing
Materials characteristics
Mechanical properties of materials
Modeling and simulations
Nanomaterials
Rapidly prototyping
Smart materials and systems
Surface engineering and tribology
