

# CALL FOR PAPERS

**ICBSCC 2022**  
**Apr 29-30, 2022**  
**Jerusalem, Israel**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSCC 2022 : International Conference on Blockchain, Smart Contracts and Cryptocurrencies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Blockchain, Smart Contracts and Cryptocurrencies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Applications of blockchain and smart contracts in financial services

Applications of blockchain and smart contracts beyond the financial services

Blockchain and smart contract business models

Challenges of developing blockchain and smart contract applications

New models for digital currencies that exploit blockchain and smart contracts

Socio-economic implications of blockchain and smart contract technologies

Political implications of blockchain and smart contract technologies

Cultural applications of blockchain and smart contract technologies

Blockchain and smart contract standards

Blockchain transaction graph analysis and business applications

Legal aspects and dispute resolution in the case of cryptocurrencies and smart contracts
