

CALL FOR PAPERS

ICBSE 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSE 2022 : International Conference on Biomechanics of Sport and Exercise is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomechanics of Sport and Exercise. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sports and exercise science
Sports biomechanics
Theoretical sports biomechanics
Biomechanical analysis
Experimental sports biomechanics
Research and applications
Analysis of professional athletes
and sports' activities
Understanding of athletic
performance
Mathematical modeling
Computer simulation
Measurement
Engineering mechanics

Muscle mechanics
Motor coordination
Kinematics
Inverse dynamics
Statics
Kinetics
Velocity
Displacement
Acceleration
Moment of Inertia
Torque
Digital filters
