

CALL FOR PAPERS

ICCSE 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSE 2022 : International Conference on Chemical Science and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemical Science and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced bioseparation technologies
Advanced Materials Processing
Biochemical Engineering
Biodiversity conservation
Bio-drug discovery
Bioenergy
Bioenvironmental Engineering
Biophysical Chemistry
Bioreactors and Bioprocesses (new applications and configurations)
Biorefinery
Biosynthetic Strategies
Capture, Storage and Use of CO₂
Catalysts Synthesis and Characterization

Catalytic and Multiphase Reactors
Catalytic Processes
Chemical Engineering educational challenges and development
Chemical Reaction Engineering
Clean Energy from Fossil Resources
Coatings and Surface Treatments
Crystallization
Distillation, absorption and extraction
Efficiency and New Energy Carriers
Electro-, Photo- and Sono-Chemical Reactors
Emission Control
Energy and Nuclear Sciences
Energy Integration and Optimization
