

# CALL FOR PAPERS

**ICCTIT 2022**  
**Apr 29-30, 2022**  
**Jerusalem, Israel**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCTIT 2022 : International Conference on Communication Technologies and Internet of Things is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Communication Technologies and Internet of Things. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Information and communication  
technology  
Communication systems and  
engineering  
Augmented and alternative  
communication  
RF and microwave engineering  
Signal processing  
Electronics and computer systems  
Telecommunications and networks  
Big data management and  
application  
Communication, network and  
hardware

Internet of things  
Cyber-physical system  
Network infrastructure and  
protocol  
Human machine communication  
Communication systems  
VLSI and embedded systems  
Emerging technology and  
applications  
Industrial electronics  
Power systems and power electronics
