

CALL FOR PAPERS

ICFDSP 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFDSP 2022 : International Conference on Fluid Dynamics and Statistical Physics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fluid Dynamics and Statistical Physics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Astronomy, astrophysics and cosmology	Microscopy
High energy physics, particles and fields	Nuclear physics
Condensed matter physics: clusters, nanomaterials, graphene and fullerenes	Radiation protection
Atomic and molecular physics	Optics and lasers
Mathematical physics	Condensed matter physics and materials
Complex systems, chaos and self-organisation	Particle accelerators
Computational physics and numerical simulation	Plasma and gas-discharge physics
Condensed matter physics: semiconductors	Quantum mechanics and quantum information theory
low temperature physics	Thermodynamics, fluid dynamics and statistical physics
Environmental physics	Applied physics
Metrology and instrumentation
