

CALL FOR PAPERS

ICFHE 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFHE 2022 : International Conference on Forest Harvesting and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Forest Harvesting and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Forest harvesting
Harvesting methods
Forest management
Sustainable forest harvesting
Planning and monitoring of
harvesting operations
Forest road planning
Forest road construction and
maintenance

Survey and tree mapping
Engineering a harvest plan
Logging road construction
Long-distance transport
Logging, Felling, Skidding and
Yarding
Processing and sorting
Log transporting
