

CALL FOR PAPERS

ICHTPIE 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHTPIE 2022 : International Conference on High Temperature Processes and Industrial Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of High Temperature Processes and Industrial Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Refractory materials and vessel
integrity
High temperature modelling
High temperature experimentation
Metal recovery

Secondary resources for building
materials
Materials characterization
High temperature processes and
sustainable materials management
