

CALL FOR PAPERS

ICINTE 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICINTE 2022 : International Conference on Next Generation Internet Networks and Traffic Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Next Generation Internet Networks and Traffic Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Grid computing
Cloud computing
Location-based and context-aware services
Network co-operation
Overlay networks and peer-to-peer
Internet of Things
Cyber-Physical Systems

Admission and congestion control
Performance evaluation of NG networks
Quality of Service (QoS), Experience (QoE) and Resiliency (QoR)
Service differentiation and multi-service support
Traffic measurements, modeling and statistical characterization
Optimization algorithms and heuristics for network dimensioning
