

CALL FOR PAPERS

ICMAM 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMAM 2022 : International Conference on Mechanical Advantage in Machines is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mechanical Advantage in Machines. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mechanical engineering
Mechanical system
Mechanical advantage
Classical machines
Simple machines
Mechanical efficiency
Ideal mechanical advantage
Actual mechanical advantage
Mechanical advantage device
The law of the lever
Speed ratio

Gear trains
Chain and belt drives
Block and tackle
Efficiency
Design and analysis of mechanical systems
Manufacturing and maintenance of mechanical systems
Design, production and operation of machinery
Modern tools
Mechanics
Structural analysis
