

CALL FOR PAPERS

ICMCMP 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCMP 2022 : International Conference on Mathematical and Computational Methods in Physics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mathematical and Computational Methods in Physics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced Numerical Algorithms
Computational Mathematics
Mathematical models in Economy and Insurance
Mathematical models for the information society
Mathematical models in Medicine
Mathematical Chemistry
Industrial Mathematics
Engineering Mathematics
Computation in Complex Networks
High Performance Computing
Hybrid Computational Methods
Computational Statistics
Computational Physics

Computational Chemistry
Computational Biology
Computational Engineering
Computational Finance
Space Geodesy and Space Dynamics
Computational Mechanics
Computational Biology and Medicine,
Computational Geosciences and Meteorology
Computational Economics and Finance
Computational Grids
Numerical and Computational Mathematics
Scientific Computation
Theoretical Physics
