

CALL FOR PAPERS

ICMDPT 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMDPT 2022 : International Conference on Materials Design and Processing Techniques is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Materials Design and Processing Techniques. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Materials science and engineering
Materials in industry
Industrial applications of materials
Materials design
Industrial production of materials
Processing techniques
Extraction of materials and their conversion into useful forms
Extraction and purification techniques
Basic materials sector
Processing of raw materials
Mining and refining of metals, chemical producers and forestry products
Qualifying chemicals
Energy sources

Basic materials sector and economical shifts
Construction projects
Creation of new products
Foundry techniques
Blast furnace extraction
Electrolytic extraction
Electronic, optical and magnetic materials
Electronic circuits
Optoelectronic devices
Magnetic and optical mass storage media
Semiconductors
Conductors and insulators
Superconducting materials, spintronics, metamaterials
