

CALL FOR PAPERS

ICNDFM 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNDFM 2022 : International Conference on Nonlinear Dynamics and Fuzzy Mathematics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nonlinear Dynamics and Fuzzy Mathematics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Applied non-linear physics
Applied mathematics and engineering: modeling, analysis and computation
Fuzzy mathematics and its applications
Mathematical modeling
Differential equations, dynamical systems and their applications
Nonlinear and complex systems
Nonlinear optimization
Fluid mechanics
Game theory

Algebra and its application
Numerical analysis
Dynamical system
Biomechanics
Computational methods
Engineering mathematics
Fluids mechanics and heat transfer
Linear and nonlinear wave propagation
Nonlinear dynamics
