

CALL FOR PAPERS

ICNGWCOT 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNGWCOT 2022 : International Conference on Next Generation Wireless Communications for Internet of Things is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Next Generation Wireless Communications for Internet of Things. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Short and medium range radio
access

Energy-efficient communications and
management

New sensing and actuation
capabilities of devices and their
applicability

Wireless wearable and IoT
communication architectures and
systems

Sustainable design and solutions
Network architecture and system
design

Smart bandwidth utilization

Integration with existing standards
and protocols □

Testbed, prototype, and practical
systems for IoT use cases

Millimeter-wave technologies and
applications

Novel integrated circuit (IC)
techniques for IoTs
