

CALL FOR PAPERS

ICOFCCS 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOFCCS 2022 : International Conference on Organic Fine Chemicals and Chemical Synthesis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Organic Fine Chemicals and Chemical Synthesis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Organic fine chemicals
Small molecules and big molecules
Technologies
Traditional chemical synthesis
Biotechnology
Fine chemicals manufacturing
Project management

Markets and market size
Pharmaceuticals
Agrochemicals
Heterogeneous catalysis for fine chemicals
Process intensification in fine chemicals
Recent trends and new developments
