

# CALL FOR PAPERS

**ICQEQC 2022**  
**Apr 29-30, 2022**  
**Jerusalem, Israel**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQEQC 2022 : International Conference on Quantum Electrodynamics and Quantum Chromodynamics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum Electrodynamics and Quantum Chromodynamics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum Electrodynamics and Quantum Chromodynamics  
History of quantum electrodynamics  
Feynman's view of quantum electrodynamics  
Introduction  
Basic constructions  
Probability amplitudes

Perturbative quantum chromodynamics  
Lattice quantum chromodynamics  
1/N expansion  
Effective theories  
quantum chromodynamics sum rules
