

CALL FOR PAPERS

ICTCB 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTCB 2022 : International Conference on Thermal Control of Buildings is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Thermal Control of Buildings. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Thermal control in buildings
Passive temperature control in buildings
Thermal control by building design
Smart insulation for thermal control in buildings
Decentralized thermal control of building systems
Decentralized and distributed temperature control

Building envelope heating systems
Building thermal management
Control architecture selection
Decentralized control
Model predictive control
