

CALL FOR PAPERS

ICUCE 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUCE 2022 : International Conference on Urban and Civil Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban and Civil Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Urban Design and Environment	Sustainable infrastructure
Municipal Engineering	Seismology and Earthquake
Municipal Infrastructure	Engineering
Civil Engineering	Urban Earthquake Engineering
Architecture and Urban Planning	Earthquake Engineering
Architectural Design and Theories	Environmental engineering
Urban Planning and Design	Environmental Science and Health
Building Technology Science	Environment and Social Development
Art Design and Landscape	Environment and Economic
Architecture	Restructuring
Aesthetics and Landscape	Environment and Pollution Cost
Energy Conservation and Equipment	Environmental Clean Technology
Construction and Renewable Energy	Environment and Climate Change
Sources	Environment and Waste Management
Ecological Construction and	
Intelligent Control
