

CALL FOR PAPERS

ICWCET 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWCET 2022 : International Conference on Wireless Communications Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wireless Communications Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wireless Communications Engineering
Communication and Information
Theory
Computer and Network Security
Cross-Layer Optimized Wireless
Networks
MIMO Systems
Mobile Computing
Multimedia over Wireless
Next Generation Mobile Networks
WiMAX/WiBro Services and QoS
Management

Wireless LANs and Wireless PANs
Wireless Sensor Networks
Pervasive/Ubiquitous Computing
Mobility and its Applications
Cooperative and Cognitive Networks
Autonomic Wireless Networking
Emergency Management: Communication
and Computing Platforms
Planning and Optimization of
Wireless Communication Networks
Vehicular Communication Technology
