

CALL FOR PAPERS

ICWEEAIT 2022
Apr 15-16, 2022
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWEEAIT 2022 : International Conference on Web Effort Estimation and Artificial Intelligence Techniques is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Web Effort Estimation and Artificial Intelligence Techniques. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Web effort estimation
- Software effort estimation
- Effort estimation techniques
- Emerging web effort estimation methods
- Expert opinion
- Algorithmic techniques
- Artificial intelligence techniques
- Measuring effort prediction power and accuracy
- Measuring predictive power
- Measuring predictive accuracy

- Data validation
- Variables and model selection
- Extraction of effort equation
- Model validation
- Function point method
- Constructive cost model
- Web objects
- Effort estimation of web based applications
- Web effort estimation using classification and regression trees
- Cost estimation techniques for web projects
