

CALL FOR PAPERS

ICABERD 2022
Apr 22-23, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABERD 2022 : International Conference on Advances in Biomedical Engineering, Robotics and Devices is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Biomedical Engineering, Robotics and Devices. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical robotics and devices
Medical robotics
Robotic surgery
Biomedical robotics and
biomicrosystems
Neuro-robotics, surgical robotics
and surgical planning
Mechanobiology and developmental
control

Bio robotics, neuro-robotics,
surgical robotics and surgical
planning
Human augmentation, interaction and
collaboration among robots and
humans
Robot ethics in human society
Robot laws
Rehabilitation robotics, robotics
for stroke patients
