

# CALL FOR PAPERS

**ICAIC 2022**  
**Apr 22-23, 2022**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAIC 2022 : International Conference on Advanced Inorganic Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Inorganic Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Inorganic chemistry  
Inorganic chemical engineering  
Crystallography  
Coordination and organometallics chemistry  
Mechanistic inorganic chemistry  
Characterization of inorganic compounds  
Supra molecular system chemistry  
Bioinorganic chemistry  
Synthetic inorganic chemistry  
Solid state chemistry  
Theoretical inorganic chemistry  
Descriptive inorganic chemistry  
Industrial inorganic chemistry

Inorganic and nuclear chemistry  
Inorganic materials  
Element chemistry  
Inorganic chemistry of elements  
Coordination chemistry  
Isotope chemistry  
Biological inorganic chemistry  
Organometallic chemistry  
Solid-state inorganic chemistry  
Synthetic inorganic chemistry  
Inorganic polymer  
Supramolecular chemistry  
Mechanistic inorganic chemistry
