

CALL FOR PAPERS

ICASBE 2022
Apr 22-23, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASBE 2022 : International Conference on Advances in Bioinformatics and Biomedical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Bioinformatics and Biomedical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioinformatics
Algorithms
Applied Biosystems
Artificial Organs
Bayesian methods
Biomechanical Engineering
Biomedical Sensors
Biostatistics
Chemical Structures
Computational Biology
Data Analysis
Data Mining
Databases

Dental Engineering
DNA Sequencing
DNA Structure
Drug Design
Finite Elements
Gene Regulation
Genetic Engineering
Genetics
Genomics
Health Monitoring Systems
Molecular Engineering
Molecular Simulations
Neural Engineering
