

CALL FOR PAPERS

ICGI 2022
Apr 22-23, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGI 2022 : International Conference on Genome Informatics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Genome Informatics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Genome Informatics
NGS data analysis
Cloud and workflow platforms for
bioinformatics
Cancer genomics
Metagenomics

Machine learning
Molecular biology
Protein bioinformatics
Open problems in computational
biology
