

CALL FOR PAPERS

ICNCCCT 2022
Apr 22-23, 2022
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNCCCT 2022 : International Conference on Network, Control, Communication and Computing Technologies is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Network, Control, Communication and Computing Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software Engineering
Agile Software Development
Architecture and Design
Aspect-Oriented
Cloud-Computing
Data Mining Systems
Dependability, Safety, and
Reliability
Development Tools and Environments
Databases
Data Warehousing Systems
Empirical Software Engineering
Formal Methods
Human-Computer Interaction

Information Privacy and Security
Process Modeling
Query Processing and Optimization
Programming Languages
Refactoring
Requirements Engineering
Search-Based Software Engineering
Software Economics and Metrics
Software Evolution and Maintenance
Software Reuse
Software Testing and Analysis
Software Visualization
