

# CALL FOR PAPERS

**ICGEP 2022**  
**May 20-21, 2022**  
**Berlin, Germany**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGEP 2022 : International Conference on Green Energy and Power is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green Energy and Power. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Safe and resiliency through  
community-scale micro-grids  
Modeling cyber-physical smart grids  
and demand response management  
Energy storage, fuel cell  
technologies, and trends

Electrical vehicles, grid to  
vehicle and vehicle to grid  
Solar power systems, energy and  
water management and  
sustainability  
Secure and advanced metering  
infrastructure
