

CALL FOR PAPERS

ICMEDDD 2022
May 20-21, 2022
Berlin, Germany

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEDDD 2022 : International Conference on Materials Enabled Designs and Detail Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Materials Enabled Designs and Detail Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Materials enabled designs
- Product design requirements
- Subassembly design requirements
- Product element design requirements
- Materials selection process
- Materials information resources
- Manufacturing process considerations
- Component fabrication processes

- Degradation and reliability of materials
- Testing protocols
- Testing problems
- Product planning
- Control documents
- Materials engineering considerations for system-level design
- Detail design and testing
