

CALL FOR PAPERS

ICMPEMM 2022
May 24-25, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMPEMM 2022 : International Conference on Mineral Processing and Extractive Metallurgy Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mineral Processing and Extractive Metallurgy Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Metallurgy
Metallurgy and mineralogy
Mineral processing
Extractive metallurgy
Process of separating commercially valuable minerals from their ores
Extractive metallurgy methods
Metallurgical testing
Unit operations
Comminution
Sizing
Concentration
Gravity concentration
Froth flotation

Electrostatic separation
Magnetic separation
Automated ore sorting
Dewatering
Other processes
Physicochemical problems of mineral processing
Metallic elements and their intermetallic compounds
Technology of metals
Metalworking processes
Metal forming
Heat treatment
Plating
Thermal spraying
