

CALL FOR PAPERS

ICWM 2022
May 17-18, 2022
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWM 2022 : International Conference on Weather and Meteorology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Weather and Meteorology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Meteorology
Research of visual atmospheric
phenomena
Instruments and classification
scales
Atmospheric composition research
Research into cyclones and air
flow
Observation networks and weather
forecasting
Numerical weather prediction
Meteorologists
Equipments
Spatial scales
Microscale
Mesoscale
Synoptic scale

Global scale
Meteorological principles
Boundary layer meteorology
Dynamic meteorology
Applications of meteorology
Weather forecasting
Aviation meteorology
Agricultural meteorology
Hydrometeorology
Nuclear meteorology
Maritime meteorology
Military meteorology
Environmental meteorology
