

CALL FOR PAPERS

ICRDET 2022
May 03-04, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRDET 2022 : International Conference on Recent Developments in Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Developments in Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acoustics and Noise Control	Collaborative filtering
Aerodynamics	Composite and Smart Materials
Application of Artificial Intelligence	Compressible Flows
Applied Mechanics	Computational Mechanics
Artificial Intelligence and Neural Computing	Computational Techniques
Artificial Neural Networks	Data Mining
Automation, Mechatronics and Robotics	Decision trees/rule learners
Automotive Engineering	Dynamics and Vibration
Ballistics	Energy Engineering and Management
Biomechanics	Engineering Materials
Biomedical Engineering	Evolutionary computation/meta heuristics
Case based reasoning	Fatigue and Fracture
Classification Algorithms	Fluid Dynamics
