

CALL FOR PAPERS

ICANSME 2022
May 17-18, 2022
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICANSME 2022 : International Conference on Advanced Nanomaterials Science and Mechanical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Nanomaterials Science and Mechanical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Materials Science:

New Materials and Advanced Materials
Composites
Micro / Nano Materials
Low Dimension Structures
Ceramics
Metal alloy Materials
Biomaterials
Optical/Electronic/Magnetic Materials
Sensor Materials
Manufacturing Processes and Mechanical Engineering
Building Materials
New Energy Materials

Environmental Friendly Materials
Thin Films
Protective Coatings and Corrosion of Materials
Hydrogen and Fuel Cell Science Engineering and Technology
New Methods of Modeling Properties
Materials
Mechanical Engineering:
Surface Engineering/Coatings
Materials Forming
Materials Machining
Welding and Joining
Laser Processing
