

CALL FOR PAPERS

ICADS 2022
May 20-21, 2022
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICADS 2022 : International Conference on Audiology and Deaf Studies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Audiology and Deaf Studies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Accessibility and assistive technologies: people, devices and life
Acoustics and communication in school, workplace, health care and community setting
Advances in teleaudiology assessment
Audiology and Deaf Studies
Audiology and Deafness
Audiology: Medicine and Instrumentation
Auditory and cognitive aging: from sounds to meaning
