

# CALL FOR PAPERS

**ICFFCT 2022**  
**May 13-14, 2022**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFFCT 2022 : International Conference on Fossil Fuels and Clean Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fossil Fuels and Clean Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental Engineering  
Carbon Nanotubes  
CO<sub>2</sub> Capture and Sequestration  
Batteries  
Critical Energy Infrastructures  
Energy Efficiency  
Environmental Engineering Design  
Biofuels  
Fossil Fuels and Clean  
Technologies  
Hydraulics and Water Management  
Hydrogen Energy and Fuel Cells  
Hydrogen Energy Technologies

Improving Environmental Impact  
Intelligent Electrical Networks  
Nuclear Power Engineering  
Opportunities for Renewable  
Hydrogen  
Power Equipment and Control  
Systems  
Power Systems  
Renewable Energies, Fuels and  
Resources  
Solar Energy  
Thermal Power Engineering  
Water Power Engineering  
Wind Energy
