

# CALL FOR PAPERS

**ICIPMI 2022**  
**May 24-25, 2022**  
**Barcelona, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIPMI 2022 : International Conference on Information Processing in Medical Imaging is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Information Processing in Medical Imaging. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Information Processing in Medical Imaging  
Image Analysis and Signal Processing  
Shape Representation and Analysis  
Image Registration and Fusion  
Functional and Molecular Imaging  
Image Acquisition Methods and Devices  
Computational Physiology  
Machine Learning

Data Visualization  
Statistical and Mathematical Models  
Image Reconstruction  
Image Interpretation and Computer Aided Diagnosis  
Imaging and Genomics  
Objective Assessment of Image Quality  
Image Guided Surgery  
Medical Physics and Biomedical Engineering
