

CALL FOR PAPERS

ICCESE 2022
May 20-21, 2022
Berlin, Germany

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCESE 2022 : International Conference on Civil, Environmental and Structural Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Civil, Environmental and Structural Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil, Environmental and
Infrastructure Engineering
Computer Applications and
Information Technology
Construction Management
Earthquake Engineering
Engineering Management
Engineering Material
Engineering Mechanics
Environmental Engineering
Environmental Management
Flood Engineering
Geotechnical Engineering
Geographical Information Systems
Geomatics Engineering

Highway and Transportation
Engineering
Hydraulics and Hydrology
Engineering
Infrastructure Engineering
Landslide Engineering
Natural Hazards Management and Risk
Occupational Safety and Health in
Civil Engineering
Pollution and the Environment
Remote Sensing
Risk Assessment and Management
Soil Erosion and Sedimentation
Control
Structural Engineering
Sustainable Development
Traffic Engineering
