

CALL FOR PAPERS

ICESCS 2022
May 20-21, 2022
Berlin, Germany

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESCS 2022 : International Conference on Engineering Supply Chain Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineering Supply Chain Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Logistics Information Systems
Bin-packaging Problems
Palletization Problems
Transport Logistics
Low Carbon and Green Supply Chain Management
Reverse Logistics
Third Party Logistics
VMI / Collaborative Inventory Planning
Network Design and Food Supply Chain
Warehousing and Location Decisions
Fuzzy Modeling of Supply Chain Problems
Systems Approach to Supply Chain Modeling
Supply Chain Risk Management

Information Management in a Supply Chain
Simulation of industrial systems
Environmental and Sustainability
Issues in Logistics
Managing International Logistical Operations
RFID in Supply Chain Management
Value Chain Management
Transportation Decision
Supply Chain Information Measurement
Data Mining for e-business / SCM
Knowledge Management
Logistics in Disaster Management
Outsourcing and Procurement / Vendor Management
Supply Chain Performance Measures and Metrics
