The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMMT 2022 : International Conference on Metallurgical Machinery and Techniques is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Metallurgical Machinery and Techniques. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Metallurgical Fundamentals and  
Techniques  
Extractive Metallurgy  
Mineral Processing  
Mining and Safety  
Mining Fundamentals and Techniques  
Mine Design and Planning  
Nanotechnology, Mining, Metallurgy  
Materials and Pretreatment  
Metallurgical Thermal Engineering  
Metallurgical Machinery and  
Automation

New Materials and Performances  
Optical Material  
Phase Diagram  
Polymetric Materials  
Semiconductors  
Smart Materials  
Solidification  
Mine Closure, Waste Management and  
Reclamation  
Surface Phenomena
