

CALL FOR PAPERS

ICMMMPA 2022
May 09-10, 2022
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMMMPA 2022 : International Conference on Materials Modelling for Metals Processing Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Materials Modelling for Metals Processing Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Metal Forming and Materials
Modelling
Mechanics of Metal Deformation
Unified Constitutive Modelling
Techniques
Plasticity in Cold Metal Forming
Viscoplasticity and Microstructure
Evolution in Warm/Hot Metal
Forming

Continuum Damage Mechanics in Metal
Forming
Numerical Methods for Materials
Modelling
Materials and Process Modelling in
Metal Forming Applications
Crystal Plasticity for
Micro-Forming Process Modelling
