

CALL FOR PAPERS

ICHETEE 2022
May 24-25, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHETEE 2022 : International Conference on Hydrogen Energy Technologies and Energy Efficiency is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Hydrogen Energy Technologies and Energy Efficiency. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental Engineering
Carbon Nanotubes
CO₂ Capture and Sequestration
Batteries
Critical Energy Infrastructures
Energy Efficiency
Environmental Engineering Design
Biofuels
Fossil Fuels and Clean
Technologies
Hydraulics and Water Management
Hydrogen Energy and Fuel Cells
Hydrogen Energy Technologies

Improving Environmental Impact
Intelligent Electrical Networks
Nuclear Power Engineering
Opportunities for Renewable
Hydrogen
Power Equipment and Control
Systems
Power Systems
Renewable Energies, Fuels and
Resources
Solar Energy
Thermal Power Engineering
Water Power Engineering
Wind Energy
